CARITAS EGYPT

VISION

A conscious community where every human being, especially the poor and the marginalized, enjoys love, dignity, and justice

OVERVIEW

FOUNDED IN 1967
CI MEMBER SINCE 1969

3000 EMPLOYEES & VOLUNTEERS

70 BRANCHES IN 17 GOVERNERATES

PROGRAMS

YOUTH AND LEADERSHIP

Conscious young people become able to lead the individual and social initiatives of community development. 5000 young people and volunteers are the annual average beneficiaries

WOMEN EMPOWERMENT

Women and girls become able to face the negative stereotyping they may face because of belittling their valuable position and role in their community and combat the different types of abuse, violence, and harmful practices, they may suffer due to their gender.

INCLUSION

Persons with disability are integrated into the community, enabling them to obtain their educational, economic, and reproductive rights and participate in all family and social life activities according to their capabilities.

REFUGE AND MIGRATION

Refugees and migrants integrated into Egyptian society and became able to access education, healthcare, employment, and psychiatric support opportunities.

CHILD CARE AND PROTECTION

A safe community that can provide high-quality child-raising and development services based on children's best interests and where adults can protect children against different kinds of child violence, abuse, exclusion, and exploitation.

ECONOMIC EMPOWERMENT

Low-income families and unemployed persons witnessed improvements in their livelihood and economic conditions and became able to combat poverty, reducing their unemployment leveland increasing their capabilities to meet their basic needs and face the various socioeconomic changes.

REHABILITATION

A conscious community is able to respond to the stereotyping perspectives and different social stigmas and discrimination affecting some vulnerable groupswho are suffering due to addiction, HIV, old age, or incarceration of one of their family members, wherevulnerable groups who are suffering because social stigmas become able toaccess healthcare, psychiatric, and rehabilitation services.
